

MOHAMMAD GULAM MOHIUDDIN

Software Engineer

+917620895347 • md.sayyad7777@gmail.com.com

Technical Skills

Programming & Scripting Python, SQL

- Cloud Computing Azure OpenAI, Cosmos DB, PostgreSQL, Azure Functions, Document Intelligence, AI Search, App Service, Key Vault
- AI & Development Large Language Models (Azure OpenAI), AI Application Development, Automation, Prompt Engineering, RAG Development, LangChain, Backend Development, FastAPI, AI-Driven Solutions
- Management & Communication Team Leadership (managed teams of up to 4), Research and Development, Problem Solving, Effective Communication
- System & DevOps Linux, Windows, Git

Experience

06/2024-PRESENT

IG CHATBOT

- Built an AI-powered semantic Q&A chatbot with access control, vector-based retrieval, and hybrid Azure AI Search for contextual responses.
- Developed full-stack modules using FastAPI and React.js, ensuring scalability, secure authentication, and efficient admin management.

APM (APPLICATION MANAGEMENT CHATBOT)

- Developed and deployed an AI-driven chatbot for real-time Azure resource and configuration queries using Azure OpenAI, AI Search, and Document Intelligence.
- Integrated multiple Azure services to enable dynamic responses and automated troubleshooting, reducing support overhead and improving productivity.

FUSION CENTER

- Created a centralized product visibility hub integrating real-time product status, SharePoint videos, and demos using Python, FastAPI, React.js, and Azure PostgreSQL.
- Enhanced accessibility and team collaboration by providing a unified platform for all internal product data and resources.

06/2022-05/2024

EXTRACT EDGE

- Designed a document analysis application leveraging Unstructured, LangChain, and Azure Cosmos DB for contract data extraction and Excel-based reporting.
- Improved review speed and consistency by implementing Celery for parallel LLM-based document processing.

CCGPT (CORPORATE CAPITAL GPT)

- Developed frontend and backend APIs enabling multi-document chat and insights via Azure OpenAI and Cosmos DB.
- Improved user productivity with prompt management, Excel report generation, and real-time AI insights

Education

2018-2022

B.E. IN COMPUTER SCIENCE & ENGINEERING

RTMNU University

Certification

AI-900 AZURE AI FUNDAMENTALS

AZURE FUNDAMENTALS

ANGULAR ASSOCIATE

HANDS-ON AI MASTERCLASS I, II & III MASTERY (YOU.COM)
